> Emporia Water Works Trouble, EMPORIA, Kas., Sept. 7 .- Two reports appointed to investigate the matter of the new water works dam. The majority of the commitsee reported that the water used prior to August specifications, and that the plans and specificaions were changed in many particulars, adding to the expense of the work. They also reported hat Councilman Tytherleigh, who had the su-terintendency of the work, made out the estimates of May I, instead of the engineer as required by law, and that the overestimates amounted to \$1,800. The report also stated that according to the original plans the dam could have been built for \$6,208, but that these plans were rejected on the ground that the dam could be built for \$5,000, and that under these plans the dam had already cost \$8,319.90 and would cost when completed \$11,500. The latter secured a gun and fired both barrels at Swearingen, inflicting a faa crack in the wall at Easley, but without effect. NEW YORK, Sept. 7 .- There are said to e several good reasons for believing that Jay Gould will acquire within a very short time not only the postal telegraph, but Mackey's comnercial cable, as well as the thousands of miles hat Mackay practically owns. Negotiations Mackey interests have been in progress for some time, conducted by Gould and Mackay personally whenever Mackey has been in New York and in his absence by S. L. M. Barlow, of York and in his absence by S. L. M. Barlow, of the counsel for Mackey and Dr. Green, At these conferences the books, particularly of the cable company, were freely shown. Negotiations have not been interrupted for a day since Mackay's return from Europe last month. There is, therefore, every prospect that Mac-key's broad scheme of a big cable and telegraph company competition in the interest of the general public will go the way of the many smaller and earlier enterprises.

Wholesale Strike of Switchmen Threatened CHICAGO, Sept. 7 .-- A meeting of switchroads. A committee consisting of one from each road was appointed to wait upon the officials of the Chicage, Eurlington & Quincy railway this afternoon and demand of it that the two crews discharged on Monday be reinstated, also to demand of the Lake Shore that it employ none but union switchmen at the stock yards. Several non-union men have been employed there since the big strike, and the action of the men to-day virtually resurrects the old trouble. It was unanimously decided that if both requests were not granted a strike should be declared at 7 o'clock this
